

Calendar-thematic plan of lectures of pathophysiology course

for the students of III-rd year of studying of Medical Institute of Sumy State University

for spring semester of 2015-2016 studying year

Lecturer Svetlana Vladimirovna Radchenko

Topics of lectures

Number of hours

Date

1.

Leukocytosis, leukopenia. leukemia

2

Tuesday, 09 July 2013 11:41 - Last Updated Tuesday, 04 September 2018 19:58

27.01.2016

2.

The role of endothelium in pathology

2

10.02.2016

3.

Atherosclerosis. Etiology and pathogenesis

2

24.02.2016

4.

Menkeberg Arteriosclerosis

Tuesday, 09 July 2013 11:41 - Last Updated Tuesday, 04 September 2018 19:58

General pathophysiology of the endocrine system

2

20.04.2016

8.

Extreme conditions

2

04.05.2016

9.

Modern methods of studying disease

2

18.05.2016

Tuesday, 09 July 2013 11:41 - Last Updated Tuesday, 04 September 2018 19:58

1.

Violations of system erythrocytes. Anemia

2

25.01-29.01.2016

1.

Leukocytosis, leukopenia, leukemia

2

01.02-05.02.2016

1.

Violation of hemostasis

2

08.02-12.02.2016

Tuesday, 09 July 2013 11:41 - Last Updated Tuesday, 04 September 2018 19:58

1.

Concluding session on semantic module "Pathophysiology of blood system"

2

15.02-19.02.2016

1.

Pathophysiology of heart. Arrhythmias

2

22.02-26.02.2016

1.

Pathophysiology of heart. The lack of coronary circulation. Coronary heart disease

2

20.02-04.03.2016

1.

Pathophysiology of blood vessels. Atherosclerosis. hypertension

2

07.03-11.03.2016

1.

Pathophysiology of respiratory

2

14.03-18.03.2016

1.

Hypoxia

Tuesday, 09 July 2013 11:41 - Last Updated Tuesday, 04 September 2018 19:58

21.03-25.03.2016

10.

Concluding session on semantic module "Pathophysiology of cardiovascular system and external breathing

2

28.03-01.04.2016

11.

Pathophysiology of digestion. Violation of digestion in the mouth and stomach. Stomach ulcer

2

04.04-08.04.2016

12.

Pathophysiology of digestion. Violation of digestion in the intestines. Acute pancreatitis
